

UI/UX DESIGN PORTFOLIO

Yazhini Prithika

Aspiring UI/UX Designer

Designing the intersection of complex technology and human-centric experiences.

OVERVIEW

About Me

**Yazhini Prithika**

Aspiring UI/UX Designer

CAREER OBJECTIVE

"I am a final-year Computer Science and Business Systems student passionate about creating user-friendly and visually appealing digital experiences. I enjoy designing intuitive interfaces and continuously learning modern UI/UX principles."

EDUCATION**B.Tech Computer Science & Business Systems**

V.S.B Engineering College, Karur
2022 - 2026

CGPA:
8.15**EMAIL** yazhiniprithika2005@gmail.com**Soft Skills**

Core interpersonal and cognitive skills enabling design excellence.

**Communication**

Articulating design ideas clearly and collaborating effectively with stakeholders.

**Creativity**

Thinking outside the box to deliver visually fresh and unique UI paradigms.

**Problem Solving**

Analyzing complex user flows to design simpler, intuitive navigation models.

**Teamwork**

Cooperating within cross-functional teams combining business requirements with design.

**Critical Thinking**

Evaluating wireframes objectively based on cognitive ergonomics and user patterns.

**Attention to Detail**

Ensuring pixel perfection, alignment consistency, typography hierarchies, and layout rules.

AI Lead Qualification Agent

B2B SAAS PLATFORM

Executive Summary

Problem Statement

B2B sales teams spend upwards of 60% of their time dialing and emailing unqualified leads, which severely stalls sales velocity and inflates acquisition costs. Manual lead scoring is subjective, slow, and prone to error.

Objectives

- Accelerate initial response time from hours to under 2 minutes.
- Automate profiling and contextual validation utilizing semantic prompts.
- Equip sales reps with high-fidelity analytics and context logs.

Target Users & Persona

Sarah Jenkins
SALES OPERATIONS MANAGER

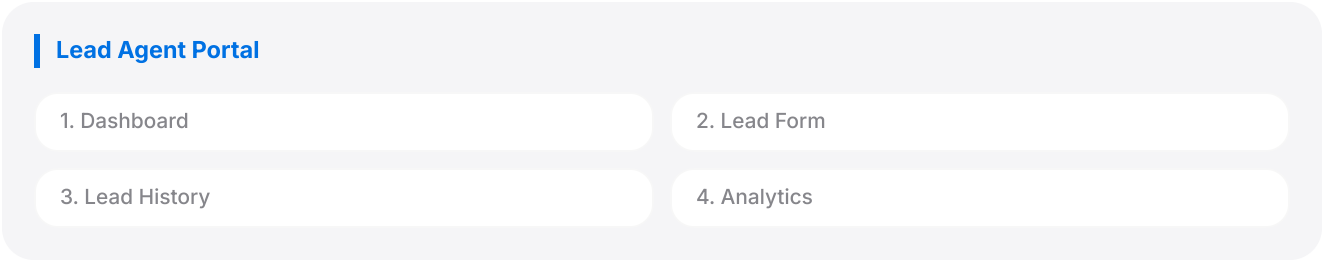

"I need an automated, transparent way to filter low-intent signups so my reps focus only on high-value accounts."

COMPETENCIES

Design & Dev Tools

Advanced

Figma

Core tool used for vector wireframing, building clean design systems, and linking interactive desktop/mobile mockup prototypes.

Advanced

Canva

Utilized for drafting social media assets, graphic posters, presentation flyers, and basic marketing visual compositions.

Basic

Adobe Photoshop

Used for raw image editing, custom shadow/gradient overlay compositions, and general canvas touch-ups.

Basic

Adobe Illustrator

Employed to construct vector logos, graphic icons, clean background vectors, and typography elements.

Advanced

HTML5

Writing structured, semantic document frames that integrate search engine tags and screen accessibility guidelines.

Advanced

CSS3

Building responsive media layout rules, grid structures, micro-animations, print layouts, and brand identity design systems.

Intermediate

JavaScript

Implementing client-side dynamic state trackers, menu event triggers, DOM modifications, and interactive app mockups.

Intermediate

Git

Tracking project code revisions, branch splits, merge conflicts, and repository updates.

Intermediate

GitHub

Hosting source code repos online, publishing pages, and coordinating joint team pull-requests.

Advanced

VS Code

Primary code editor. Configured with emmet abbreviations, formatting extensions, and code compilers.

MILESTONES

Achievements & Goals

8.15

COLLEGE CGPA

Academic Highlights

Pursuing **B.Tech in Computer Science and Business Systems** at V.S.B. Engineering College, Karur. Top 15% of class cohort, specializing in data structure algorithms, product design concepts, and business operations metrics.

02

KEY UX PROJECTS

Featured Projects

- **AI Lead Qualification CRM:**
A desktop web application mockup with routing matrices.
- **Apple-Style Design System:** Standardized component templates and layout rules.

04

CORE CERTIFICATIONS

Certifications

Certified in **UI/UX Design Fundamentals, Responsive Web Design (HTML5/CSS3), and Business Systems Analytics**, proving combined technical-design capabilities.

LEARNING JOURNEY

Bridging Creative Design & Code

Combining the structured logic of Computer Science with creative design principles. Driven to design human-centric workflows, analyze data analytics, and write robust markup templates to translate wireframe visions into clean screens.

FUTURE GOALS

Aspiring B2B SaaS Designer

Aimed at securing a ****UI/UX Design Internship**** to craft enterprise-level dashboard solutions. Committed to learning motion-design physics (Framer Motion / WebGL), mastering Design Systems at scale, and advancing UX research skills.

THANK YOU

Let's Create Together

"Thank you for reviewing my portfolio. I look forward to contributing my creativity and continuously improving my UI/UX skills."
